

Terrel Lambo Matute Esunge

Saskatoon, SK | 639-998-6395 | terrellambo4@gmail.com | [LinkedIn profile](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Bilingual Computer Systems Technology graduate with hands-on experience in full-stack development, cloud systems, API integration, role-based access, technical troubleshooting, and customer-facing environments. Skilled in Azure, Entra ID, Google Workspace, AWS fundamentals, REST APIs, PostgreSQL, Linux, and technical documentation. Strong at translating technical concepts for end users, investigating integration issues, and supporting structured technology rollouts.

TECHNICAL SKILLS

- Platforms & Cloud: Microsoft 365, Entra ID, Google Workspace, Azure, AWS (academic/personal exposure), Linux, Windows, macOS
- Integration & Identity: REST APIs, API Integration, JWT Authentication, Role-Based Access Control, JSON
- Development: Python, Java, C#, JavaScript, TypeScript, React, FastAPI, Express.js
- Databases: PostgreSQL, Supabase, SQLite, ChromaDB, SQL
- Implementation & Support: Requirements Analysis, Configuration, Troubleshooting, User Support, Technical Documentation, Process Improvement
- Tools: Git, GitHub, Jira, Docker, Figma, Cloudflare Pages, Microsoft Office Suite, JetBrains IDEs
- AI & Automation: ChatGPT, GitHub Copilot, Prompt Engineering, Ollama, Haystack
- Methodologies: Agile Collaboration, Cross-Functional Teamwork, Testing, Code Reviews, Customer-Focused Problem Solving

EDUCATION

Saskatchewan Polytechnic – Saskatoon, SK Computer Systems Technology Diploma	2023 – 2026
Saskatoon Business College Graphics Design Specialist Diploma	2022 – 2023

PROJECTS

ALDO Management System App *Personal Project | 2026 – Present*

- Designed and developed a mobile-first Progressive Web App around real retail workflows, including employee task tracking, scheduling, and operational visibility.
- Configured role-based authentication and access controls so employees and administrators received the correct permissions and workflows.
- Integrated Supabase and PostgreSQL for authentication and application data, diagnosing access, configuration, and data issues during implementation.
- Deployed the application through Cloudflare Pages and iteratively improved workflows based on operational needs and user feedback.

Technologies used: React, Tailwind CSS, Supabase, PostgreSQL, Cloudflare Pages

Local Service Hub *Personal Project | 2025 – Present*

- Developing a full-stack service platform with configurable user workflows, backend services, and relational data.
- Designed REST APIs with FastAPI and PostgreSQL and documented integration requirements between frontend and backend components.

- Used Docker to standardize development environments and troubleshoot configuration and service-connectivity issues.
- Structured the application using modular components to simplify configuration changes, maintenance, and future integrations.

Technologies used: React, FastAPI, PostgreSQL, Docker, REST APIs, Git

AI Tutor Platform

Academic Team Project | 2025 – 2026

- Collaborated in an Agile team to implement an AI-assisted education platform with instructor-controlled workflows and student-facing functionality.
- Integrated REST APIs and AI services for document processing, content generation, and application workflows.
- Investigated integration failures, API errors, access issues, and data-processing problems, documenting findings and validating fixes with teammates.
- Created technical documentation and coordinated work through Jira and Git to support reliable rollout of new functionality.

Technologies used: React, Python, FastAPI, REST APIs, PostgreSQL, Git, Jira, Ollama, Haystack

WORK EXPERIENCE

Footwear Advisor

SportChek

Oct 2025 – Present

- Identify customer needs, explain options clearly, and provide personalized guidance in a fast-paced customer-facing environment.
- Resolve customer concerns, coordinate with teammates, and adapt communication for users with different levels of product knowledge.

Stock Coordinator/Sales Associate

ALDO

Nov 2023 – Present

- Delivered customer service and supported day-to-day store systems, transactions, returns, and operational workflows.
- Maintained inventory and operational records accurately while coordinating stock, merchandising, and internal processes.
- Helped coworkers navigate store processes and tools, sharing clear instructions and troubleshooting routine issues when needed.

ADDITIONAL QUALIFICATIONS

- Fluent in English and French; comfortable explaining technical concepts and training users in both languages
- AWS Certified Solutions Architect – Associate (SAA-C03) — In Progress
